You have two choices for your enrollment experience—**Personalize Estimates** or **No, thanks**.

Click **No, thanks** to go directly to the **Choose Your Medical Plan** page.

Estimate Your Benefits Needs

We'll make enrollment suggestions for you based on estimates of your current and future benefits-related needs.

We will use averages for people like you to estimate your health-related expenses and benefits you should consider. Or, you can give us a little more information about yourself for a more personalized estimate.

Personalize Estimates

No, thanks.

Note: Your answers will be kept confidential. Answers to each question will be saved when you select Continue on each page. For your convenience, the answers will be shown the next time you work on your estimate.

For benefit suggestions based on your needs, choose **Personalize Estimates** and follow the prompts to answer questions about your benefits usage, including health care visits, medical expenses, prescription information, and medical procedures.

Your answers are completely confidential, not be shared with Maximus, and not retained after you finish your enrollment.

6

If you choose to **Personalize Estimates**, you'll be asked to fill out a few pieces of information. First, indicate the number of **doctor visits** you (and your family) expect to go to next year. Then click **Continue** to go to the next screen.

Doctor Visits

Not including physicals, how many times do you (and your family) expect to go to a doctor next year?

	Primary Care Physician (PCP)	Specialist
(You)	2	1
(Spouse)	2	1

Remember

- Physicals and annual screenings are fully covered for everyone, so don't include them.
- A pediatrician is a primary care physician.

Note: Your answers will be kept confidential. You can change your estimate later if you are going to cover different people.

Continue

7

You'll also be asked about any **Maintenance Prescriptions** you (and your family) expect to fill next year. Then choose **Continue** to proceed.

Maintenance Prescriptions

Not including refills, how many maintenance prescriptions do you (and your family) expect to fill next year?

We'll account for the cost of a full year's worth of your prescription. We'll ask you about short-term prescriptions next.

	Brand	Generic
(You)	0	1
(Spouse)	0	1

Remember

- Only count the drug, **not** refills. If you have 2 drugs with 3 refills each, for example, enter 2.
- Maintenance prescriptions are ones you take daily, such as blood pressure medicine.

Note: High-cost specialty drugs (\$600 or more per month) aren't considered. Add this cost to the estimate you'll get from the estimator.
