The Revolutionary FAR Overhaul updates currently apply to the FAR. Some GSAR/M provisions and clauses may still reference outdated FAR clauses until conforming updates are issued. In the event of a conflict between the FAR (including RFO deviations) and GSAR/M text, the FAR presides.

System updates may lag policy updates. The System for Award Management (SAM) may continue to require entities to complete representations based on provisions that are not included in this solicitation. Contracting officers will rely on representations from offers based on

provisions in the solicitation. Entities are not required to, nor are they able to, update their entity registration to remove these representations in SAM.
